LAB RELATED INFORMATION

- Please watch the videos for the lab and attempt the lab exercise prior to your scheduled lab.

- Please come to the zoom room on time; we will be taking attendance at the start of the lab. If you are not punctual, you will not receive your attendance mark. Each week you will have an oral exam during your lab time. The first part of the lab will be for announcements and will be an opportunity for you to ask questions. If you are done early, then the lab instructor may be able to give you your oral exam prior to its announced start time. If you do not show up for the announced oral exam start time, you will get a zero for your oral exam component.

- Lab exercises are due 1 hour and 10 minutes after your scheduled lab time. Be mindful of time differences (we are CST). For instance, if your lab ends at 4:20, your lab exercise will be due at 5:30 (CST). However, aim to be finished before or during the lab time so that you can ask your lab instructor questions during the first half of the lab.

- Late submissions will be marked at a penalty of 50%. However, you must complete the exercise prior to the following Monday at noon (CST) or you will not be able to submit your work.

- Due to the volume of students, we cannot arrange attendance in different lab sections. Your lab time is what you agree to attend throughout the course of the semester. Please schedule your work and extracurricular activities around your lab time.

- You will be expected to submit your own work and not a copy of anyone else’s work. Duplication of another person’s work will result in a zero for that exercise for all parties involved regardless if you did the work yourself. If you share your work with others, then you are just as guilty as the one who received your work. Duplicating/sharing work more than
once will result in a zero for the entire lab component (20% of your final grade). These cases will be reported to the Associate Dean Academic and may result in stiffer penalties.

- The lab makes up 20% of your final CS115 grade
  - 10% is for the oral exams
  - 10% is for in-lab work

- Marking scheme for weekly in-lab work:
  - 1 mark for punctual attendance (one late will be forgiven)
  - 4 marks for in-lab performance
  - 5 marks total

- There will be six oral exams. The final oral exam on Linked Lists is mandatory. The best four of the first five plus the Linked Lists oral will be counted towards your final grade. During your exam, you will be expected to turn on your video camera and show your photo id.
